Our partnership model

The Brazzaville Foundation's programmes aim to strengthen the capacities of African leaders in support of their initiatives: public authorities, private companies and civil society actors.

The Foundation is not distributive. It is a collector for the benefit of the initiatives and programmes it supports.

Based on the principles of corporate social responsibility (CSR) and environmental, social and governance (ESG) criteria in setting up programmes, the Foundation enables public and private donors to achieve their CSR and ESG objectives.

“The Africa we want”

Agenda 2063 was adopted in 2015 by the 25th Assembly of Heads of State of the African Union in Addis Ababa, Ethiopia, as a concrete manifestation of the pan-African will for unity, self-determination, freedom, progress and collective prosperity.

The initiatives supported by the Brazzaville Foundation contribute to the implementation of this agenda and its objectives to realise the continent's vision of its future: “the Africa we want”.

The Sustainable Development Goals (SDGs)

The Brazzaville Foundation has been in special consultative status with the United Nations Economic and Social Council since 2018. It has been a member of the Conference of NGOs in Special Consultative Status since 2020. The Foundation's programmes aim to achieve several of the SDGs.

An independent NGO

An independent non-profit organisation, Foundation Brazzaville is registered with the Charity Commission for England and Wales. This registration makes it accountable to the English regulatory body for its activities and funding (NGO no. 1160693, registration validated on 27 February 2015).
